My Dear Melissa,

This form of address was also by B.G. and most others and still my favourite. It expresses the depth of love we have towards ~~our~~^{our} initiate Bros and Sisters, in the craft of the Wic. It gives me a wonderful feeling of love when a young witch expresses her devotion to Wic, and you are a child of the G.S. without a doubt, what a joy you and yours have brought me. You can be sure J.P. and all the others are there to help when you require this. Yes indeed we all feel this as you say frustration, but really its a form of LUNAR. as I call it P.M.T. Similar to the female Pre-menstrual-tension. which is at times caused due to wrong living and loving etc etc. its a safety valve warning us to get any magic's worked for to a completion, when that feeling occurs, settle down, collect your self and deeply concentrate on what you have been doing working on etc, Sorry the gas board official was here to read meter, back to our way of life again. When you find some ether spell or working, as now, help for healing you have forgot, mislaid, etc., cast the circle (either real or mental) bring that which is now been brought to your mind, call on the G.S. use your magical ability to complete that work, after the moon has waned and begin to wain you'll find the relief and assurance and well being of work truly done in her and for her. about degrees there are only 3 degrees in the craft like Scots freemas only, but there are 1 or 2 others not working but degrees of authority that are sometime done you'll know when you see a warlock's Braet with no of degrees on it. Probably John or someone has stolen of this.

I have a book here for you by the late Professor

Kirk a Scots medic who advocated "water" treatments. He founded 1
or two (Seamill Hydro) near a Hotel for this type of healing, and I
will also collect as many self help types of books to help you in
your quest for knowledge. which in your case is by practice and finding
out by result et. Melissa remember about the humble aspirin, it helps some
forms of illness 1 per day helps some types of ailments so collect all the
wee factual reports and keep note of medicine as well as the
variety of techniques, I have an old ultra violet, Hi frequency machine
that used to be used by high charging salons, its use was mostly
Physiological mumbo jumbo, but had quite a following and earned a lot
of cash. Ill demonstrate it to you next time your here. but mainly
concentrate on your gift, learn the Herbal etc., Ill get you any
interesting items that come my way for you too.

Melissa all sorts of people crucified me especially ones I
loved and trusted, but when money and personal gain and
fame come in, all else goes out. So beware of that scatty
way of yours, Be wise in all things, and keep to the formula
a month and a day, year and a day et., to give yourself
time and not let undesirables cause you any hurt. There's no
fool like an old one, hence my affinity to the Tarot, I'm the
not a initiate Hermit, but I'm also the greatest fool the craft ever
had. and this is the ultimate knowledge, so Melissa learn from me
and don't get hurt. You're too lovely a person to suffer so be
at all times wise. It would be nice to contact again but one
I see you and Iona right Ill bow out and leave you to it.
with all the instruction and and knowledge ya'll ever need.

Like G.B. I always leave Donna out of things. Her remains are still in
Castleton P.O.M. and there she will remain in peace.

Melissa you will find out eventually that many things you seek;
have already been revealed to you you will give that sense of
being and knowing for you are truly of mother nature.

Yours in the G.S.

Blessed Be.
